What is documented, and what still needs evidence?

The 2019 ministry list and the 2026 booth photograph support identity/context. The NMC record should not be silently rewritten as a different official award. Materials, individual GI authentication, lead times, inventory, prices and contract terms require per-work evidence.

HSIMC's operator confirms authorization from the artisan to help develop the Hong Kong, mainland China and United States markets. The scope of each artwork, quotation and shipment is managed separately.

Start with an intent, not a shopping cart

A designer, collector, distributor or institution can begin with a need. HSIMC helps structure a cross-cultural work brief; it does not send or accept a binding order automatically.
