Austria

Business annex · English canonical worksheet

Shared written editions: de. Independent language, product/legal and tax/customs review remain separate.

Country context

The Austrian business portal routes service providers to the Point of Single Contact of the relevant Land.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which Austrian Land and municipality cover the actual installation or service site?
2. Which business activity, trade authorisation and professional qualification procedure applies to this operator?
3. Which product-specific questions should be sent to the technical-rules Product Contact Point?

Official starting points

Tax administration
Austria - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
www.bmf.gv.at · Official source content retrieved

Customs administration
Austria - Customs authority entry
Confirm import/export procedures, EORI where applicable, classification, origin, valuation, route and customs evidence.
www.bmf.gv.at · Official source content retrieved

Business / services
Austria - Business and administrative procedure entry
Identify the competent administrative procedure, activity permit, professional qualification and local establishment or temporary-service route.
www.usp.gv.at · Official source content retrieved

Product rules
Austria - Product rules and competent-authority entry
Identify applicable national product rules and competent authorities; this entry is not a certificate or conformity decision.
www.bmwet.gv.at · Official source content retrieved

Open the editable country worksheet and full source record

Define the work.

Complete one record for one product or service, one transaction model and an explicit effective date.

Transaction reference / version	Effective date / next review
Product or service / intended use	Seller / invoice issuer
Buyer / B2B, B2C or public status	Delivery site / legal territory
Dispatch / manufacturing origin	Importer / economic operator
Delivery responsibilities / terms	Required document / support languages
Applicable requirements / decision	Tax and customs determination
Evidence IDs / versions / source	Reuse limits / invalidation conditions
Responsible reviewers / competence	Result and acceptance criteria
Authorized acceptor / decision date	Accepted version / changes requested

Evidence may be reused after checking the claim, object/configuration, method, conditions, competence, permission, territory, effective date and invalidation events. A new object, use or version may require new validation.

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.

Belgium

Business annex · English canonical worksheet

Shared written editions: nl, fr, de. Independent language, product/legal and tax/customs review remain separate.

Country context

The national written-language baseline includes Dutch, French and German. Select the actual destination and document audience before choosing the transaction language set.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which region, language area and local establishment will receive the product or service?
2. Which language is required for each label, safety instruction, contract and administrative submission?
3. Which business-counter, registration and permit steps apply to the selected legal form and activity?

Official starting points

Tax administration
Belgium - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
financien.belgium.be · Official route identified; automated access limited

Customs administration
Belgium - Customs authority entry
Confirm import/export procedures, EORI where applicable, classification, origin, valuation, route and customs evidence.
financien.belgium.be · Official route identified; automated access limited

Business / services
Belgium - Business and administrative procedure entry
Identify the competent administrative procedure, activity permit, professional qualification and local establishment or temporary-service route.
business.belgium.be · Official source content retrieved

Product rules

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.

Bulgaria

Business annex · English canonical worksheet

Shared written editions: bg. Independent language, product/legal and tax/customs review remain separate.

Country context

The Bulgarian PSC provides a national administrative route. The Commission product directory separates general products from construction products.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Does the activity require a permit or electronic-signature arrangement through the Bulgarian PSC?

2. Is the product a construction product requiring the separate construction-product contact route?

3. Which current tax registration, invoicing and reporting procedure applies to the actual invoice issuer?

Official starting points

Tax administration
Bulgaria - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
nra.bg · Official route identified; automated access limited

Customs administration

Croatia

Business annex · English canonical worksheet

Shared written editions: hr. Independent language, product/legal and tax/customs review remain separate.

Country context

The Croatian PSC groups establishment, sector requirements, taxes, social security, foreign workers and free movement of goods in one business guidance route.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is the work a local establishment or a temporary cross-border service?
2. Which sector permission and foreign-worker or professional-qualification steps apply to the field team?
3. Which Croatian-language delivery and inspection records are needed for the intended buyer and use?

Official starting points

Cyprus

Business annex · English canonical worksheet

Shared written editions: el, tr. Independent language, product/legal and tax/customs review remain separate.

Country context

Greek and Turkish belong to the state-language baseline; Greek is an EU institutional official language. EU law is suspended in areas where the Republic of Cyprus government does not exercise effective control. A country label alone does not settle territorial applicability.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. What exact territory, site and route are involved, including any Green Line movement?

2. Which authority and legal regime applies at that site and to that movement?

3. Which Greek, Turkish or other communication and legally required document versions apply to this specific transaction?

Official starting points

Tax administration
Cyprus - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
www.mof.gov.cy · Official route identified; automated access limited

Customs administration
Cyprus - Customs authority entry

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.

Czechia

Business annex · English canonical worksheet

Shared written editions: cs. Independent language, product/legal and tax/customs review remain separate.

Country context

BusinessInfo.cz is the Czech official business/export portal; its PSC connects businesses to regional trade-licensing offices and accepts enquiries in Czech or English.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which regional trade-licensing office and activity classification applies?

2. Which qualifications or licences are needed for the proposed service or installation?

3. Which Czech instructions and technical documentation must accompany the exact product version?

Official starting points

Tax administration
Czechia - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
financnisprava.gov.cz · Official source content retrieved

Customs administration
Czechia - Customs authority entry

Denmark

Business annex · English canonical worksheet

Shared written editions: da. Independent language, product/legal and tax/customs review remain separate.

Country context

The Danish Services Contact Point describes its service as directed to businesses or self-employed persons already established in another EU or EEA country. Confirm the correct route for operators established elsewhere.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is the operator already established in an EU/EEA country, and is the activity temporary or an establishment?

2. Is the destination Denmark proper or another territory of the Kingdom requiring separate territorial checks?

3. Which Danish product, registration and work-site requirements apply to the proposed delivery?

Official starting points

Tax administration
Denmark - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.

Estonia

Business annex · English canonical worksheet

Shared written editions: et. Independent language, product/legal and tax/customs review remain separate.

Country context

Estonia identifies eesti.ee as its Single Digital Gateway contact point. The tax and customs board is a separate route for the transaction tax/customs position.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Who can legally represent the supplier in the relevant electronic procedure?
2. Where are the real business operations, stock, personnel and service performance located?
3. Which Estonian-language instructions, registrations and local technical rules apply to the actual object?

Official starting points

Tax administration

Finland

Business annex · English canonical worksheet

Shared written editions: fi, sv. Independent language, product/legal and tax/customs review remain separate.

Country context

Finnish and Swedish form the state-language baseline. Suomi.fi provides the business setup route and Tukes provides the product contact route.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Does the delivery involve mainland Finland or Aland, and what territorial tax/customs treatment follows?

2. Which Finnish and Swedish document versions are required for the intended audience and product?

3. Which permits, product checks and local installer or professional qualifications apply?

Official starting points

France

Business annex · English canonical worksheet

Shared written editions: fr. Independent language, product/legal and tax/customs review remain separate.

Country context

The national business-formalities guidance routes creation, modification and cessation procedures through the guichet unique. Product-rule enquiries have a separate DGE Product Contact Point.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which establishment and competent registration route covers the proposed business activity?
2. Is the destination metropolitan France or a named overseas territory with different territorial rules?
3. Which French documentation, invoice process and local operator duties apply on the transaction date?

Germany

Business annex · English canonical worksheet

Shared written editions: de. Independent language, product/legal and tax/customs review remain separate.

Country context

German PSC administration is organised through the federal states. The Commission directory distinguishes BAM, agricultural/food and construction-product contact routes.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which Land and municipality governs the local establishment or work site?

2. Which product contact route matches the product category: general technical, agricultural/food or construction?

3. Which German instructions, importer/economic-operator records and invoice requirements apply?

Official starting points

Tax administration

Hungary

Business annex · English canonical worksheet

Shared written editions: hu. Independent language, product/legal and tax/customs review remain separate.

Country context

The accessible national business source covers branches and commercial representative offices. It is a starting route for that form, not a recommendation to choose it. The EUGO endpoint could not be fetched during this check.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is the operator using a branch, local company, representative office or cross-border service arrangement?

2. Which registration and tax procedures follow from that selected operating model?

3. Which Hungarian document, invoice/reporting and product-rule requirements apply to the actual buyer and use?

Ireland

Business annex · English canonical worksheet

Shared written editions: ga, en. Independent language, product/legal and tax/customs review remain separate.

Country context

Irish and English form the state-language baseline. The Irish PSC and NSAI Product Contact Point address different business and product questions.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is the destination the Republic of Ireland, and does the route involve Northern Ireland or another separate jurisdiction?

2. Which Irish and English versions are needed for communication and for legally required documents?

3. Which NSAI product-rule enquiries and Revenue registration or customs questions remain unresolved?

Open the editable country worksheet and full source record

Define the work.

Complete one record for one product or service, one transaction model and an explicit effective date.

Transaction reference / version	Effective date / next review
Product or service / intended use	Seller / invoice issuer
Buyer / B2B, B2C or public status	Delivery site / legal territory
Dispatch / manufacturing origin	Importer / economic operator
Delivery responsibilities / terms	Required document / support languages
Applicable requirements / decision	Tax and customs determination
Evidence IDs / versions / source	Reuse limits / invalidation conditions
Responsible reviewers / competence	Result and acceptance criteria
Authorized acceptor / decision date	Accepted version / changes requested

Evidence may be reused after checking the claim, object/configuration, method, conditions, competence, permission, territory, effective date and invalidation events. A new object, use or version may require new validation.

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.

Italy

Business annex · English canonical worksheet

Shared written editions: it. Independent language, product/legal and tax/customs review remain separate.

Country context

Impresainungiorno connects businesses with the municipality SUAP business-administration route. Product rules and tax/customs reviews remain separately identified.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which municipality SUAP and sector procedure applies to the intended activity?
2. Which Italian and any destination-specific additional document languages must be provided?
3. Which invoice issuer, customs operator and product technical file apply to this version and route?

Official starting points

Tax administration
Italy - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
www.agenziaentrate.gov.it · Official route identified; automated access limited

---

Customs administration
Italy - Customs authority entry
Confirm import/export procedures, EORI where applicable, classification, origin, valuation, route and customs evidence.
www.adm.gov.it · Official route identified; automated access limited

---

Business / services
Italy - Business and administrative procedure entry
Identify the competent administrative procedure, activity permit, professional qualification and local establishment or temporary-service route.
www.impresainungiorno.gov.it · Official source content retrieved

---

Product rules
Italy - Product rules and competent-authority entry
Identify applicable national product rules and competent authorities; this entry is not a certificate or conformity decision.

Latvia

Business annex · English canonical worksheet

Shared written editions: lv. Independent language, product/legal and tax/customs review remain separate.

Country context

The Ministry of Economics identifies the Latvian PSC and product contact routes. Product enquiries connect to the Investment and Development Agency of Latvia.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which current Latvian e-service or authority handles this business activity?

2. Is the enquiry about general products or the construction-product route?

3. Which Latvian instructions, tax registration and local acceptance evidence are required?

Official starting points

Tax administration

Lithuania

Business annex · English canonical worksheet

Shared written editions: lt. Independent language, product/legal and tax/customs review remain separate.

Country context

The Innovation Agency supplies a business information and contact route. The ministry describes linked service, product and construction-product contact functions.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which business permit, qualification or licence applies to the activity?
2. Which contact function covers the subject: service, product or construction product?
3. Which Lithuanian instructions, customs evidence and local tax records are needed?

Official starting points

Tax administration
Lithuania - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.

Luxembourg

Business annex · English canonical worksheet

Shared written editions: lb, fr, de. Independent language, product/legal and tax/customs review remain separate.

Country context

Luxembourgish, French and German form the state-language baseline. Luxembourgish is not an EU institutional official language. The indirect-tax portal and direct-tax administration serve different tax questions.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Does the proposed activity require a business permit or notification, and for which legal entity?

2. Which language is required for each legislative, administrative, contractual and customer-facing document?

3. Which questions belong to indirect tax, direct tax and customs respectively?

Official starting points

Tax administration
Luxembourg - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.

Malta

Business annex · English canonical worksheet

Shared written editions: mt, en. Independent language, product/legal and tax/customs review remain separate.

Country context

Maltese and English form the state-language baseline. BusinessFirst is the PSC route; the current MTCA portal covers tax and customs, and MCCAA is the product-rule authority entry.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which BusinessFirst procedure and competent sector authority matches this activity?
2. Which Maltese and English documents are required for the product and buyer?
3. Which MTCA and MCCAA questions require a recorded answer before transaction release?

Official starting points

Tax administration
Malta - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.

Netherlands

Business annex · English canonical worksheet

Shared written editions: nl. Independent language, product/legal and tax/customs review remain separate.

Country context

Business.gov.nl is the Dutch PSC for resident and foreign entrepreneurs. It also provides a specific route for admission of products already marketed in another EU country.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is the destination the European Netherlands or a separate territory requiring its own scope check?

2. Where are the stock, importer and invoice issuer located?

3. What evidence supports lawful marketing and the applicability of any mutual-recognition route for the exact goods?

Official starting points

Poland

Business annex · English canonical worksheet

Shared written editions: pl. Independent language, product/legal and tax/customs review remain separate.

Country context

Biznes.gov.pl distinguishes sole-trader registration in CEIDG from company registration in KRS. The actual legal form determines the relevant route.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Is CEIDG, KRS or another authorised operating route relevant to the selected entity?
2. Which current Polish invoicing and reporting process applies to this taxpayer and date?
3. Which Polish instructions and product-rule evidence must be supplied for the delivered configuration?

Official starting points

Tax administration

Portugal

Business annex · English canonical worksheet

Shared written editions: pt. Independent language, product/legal and tax/customs review remain separate.

Country context

The gov.pt business-creation guide connects the registration process with the Institute of Registries and Notaries. Tax/customs and product enquiries use their own national routes.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which registration form, registry procedure and local activity permission applies?

2. Does the transaction involve mainland Portugal, Madeira or the Azores, and which local treatment must be checked?

3. Which Portuguese documents, invoice records and importer responsibilities apply?

Romania

Business annex · English canonical worksheet

Shared written editions: ro. Independent language, product/legal and tax/customs review remain separate.

Country context

PCUe is the electronic business/service procedure route. The Commission product directory also identifies specialised Romanian routes for legal metrology and construction products.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which PCUe procedure and authority handles the proposed activity?
2. Does the product require a specialised metrology or construction-product enquiry?
3. Which Romanian-language, tax reporting and customs records apply to the delivered version?

Official starting points

Slovakia

Business annex · English canonical worksheet

Shared written editions: sk. Independent language, product/legal and tax/customs review remain separate.

Country context

Slovensko.sk provides the PSC procedure route. Financial Administration is the tax/customs contact; UNMS is the product-rule/standards entry. An older customs directory URL returned a maintenance page.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which trade-licensing or professional procedure is required for the selected operator?

2. Which UNMS product-rule enquiry is necessary for this exact product and use?

3. Which Slovak-language, invoice and customs records must be provided?
