Belgium

Business annex · English canonical worksheet

Shared written editions: nl, fr, de. Independent language, product/legal and tax/customs review remain separate.

Country context

The national written-language baseline includes Dutch, French and German. Select the actual destination and document audience before choosing the transaction language set.

Country membership, language availability and publication do not establish product conformity, tax treatment or permission to operate.

Questions for this transaction

1. Which region, language area and local establishment will receive the product or service?
2. Which language is required for each label, safety instruction, contract and administrative submission?
3. Which business-counter, registration and permit steps apply to the selected legal form and activity?

Official starting points

Tax administration
Belgium - Tax administration
Confirm national tax registration, VAT, invoicing/reporting and direct-tax implications for the exact entity and transaction date.
financien.belgium.be · Official route identified; automated access limited

Customs administration
Belgium - Customs authority entry
Confirm import/export procedures, EORI where applicable, classification, origin, valuation, route and customs evidence.
financien.belgium.be · Official route identified; automated access limited

Belgium - Business and administrative procedure entry
Identify the competent administrative procedure, activity permit, professional qualification and local establishment or temporary-service route.
business.belgium.be · Official source content retrieved

Product rules
Belgium - Product rules and competent-authority entry
Identify applicable national product rules and competent authorities; this entry is not a certificate or conformity decision.
economie.fgov.be · Official route identified; automated access limited

Open the editable country worksheet and full source record

Define the work.

Complete one record for one product or service, one transaction model and an explicit effective date.

Transaction reference / version	Effective date / next review
Product or service / intended use	Seller / invoice issuer
Buyer / B2B, B2C or public status	Delivery site / legal territory
Dispatch / manufacturing origin	Importer / economic operator
Delivery responsibilities / terms	Required document / support languages
Applicable requirements / decision	Tax and customs determination
Evidence IDs / versions / source	Reuse limits / invalidation conditions
Responsible reviewers / competence	Result and acceptance criteria
Authorized acceptor / decision date	Accepted version / changes requested

Evidence may be reused after checking the claim, object/configuration, method, conditions, competence, permission, territory, effective date and invalidation events. A new object, use or version may require new validation.

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.
