Participating State Party. IGJ covers companies with a legal address in Buenos Aires City within its stated jurisdiction; select the competent provincial or other registry for the actual establishment.

ARCA tax and customs profiles and national product-conformity procedures address separate decisions. The EU trade agreement provisionally applies with Argentina; the actual product, origin and tariff schedule still govern any claim.

Product or service / intended use	Seller / invoice issuer
Buyer / B2B, B2C or public status	Delivery site / legal territory

Evidence may be reused after checking the claim, object/configuration, method, conditions, competence, permission, territory, effective date and invalidation events. A new object, use or version may require new validation.

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.
