PARTICIPATING STATE PARTY · ACCESSION TRANSITION

Country context

Participating State Party in an accession transition. Determine the MERCOSUR norm, national incorporation, tariff/origin arrangement and effective date for this particular operation; accession does not settle every rule at once.

SIN, Aduana Nacional, SEPREC and IBMETRO cover distinct national responsibilities. Spanish reuse is only an initial communication route: the wider national language inventory and community-specific requirements need separate review.

Transaction reference / version	Effective date / next review
Product or service / intended use	Seller / invoice issuer
Buyer / B2B, B2C or public status	Delivery site / legal territory
Dispatch / manufacturing origin	Importer / economic operator
Delivery responsibilities / terms	Required document / support languages
Applicable requirements / decision	Tax and customs determination
Evidence IDs / versions / source	Reuse limits / invalidation conditions

Evidence may be reused after checking the claim, object/configuration, method, conditions, competence, permission, territory, effective date and invalidation events. A new object, use or version may require new validation.

Record professional determinations and the authorized acceptance decision separately. Publication of this worksheet does not complete those decisions. Keep customer, tax and contract details in the restricted transaction record.
